

Home Learning - Maple Class

(ABC)
English

We have been writing poems about ourselves in English. At home you can build on language skills and action words:

- Play Simon Says (Or change it to "mummy says") and encourage your child to join in a variety of different actions. When it is their turn to give an instruction you can get it wrong and see if they can correct it for you.

I've attached a communication board to help!

- Draw a picture of yourself and label it with the symbols / words below

We are learning about shape this week. To support your learning at home you could:

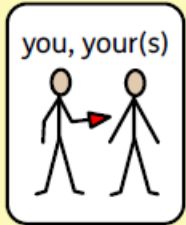

- Go on a shape walk! Can you find a triangle, square or a circle.

How many of each can you find?

- If you're doing some baking, you could make biscuits into different shapes.
- Or you could explore some 3D shapes and see which ones roll, or how tall a tower you can build using a variety of wooden blocks.

We have been learning about ourselves in topic. Here are some activities you can do at home:

- Sing body awareness songs such as "Heads, shoulders"; "I've got a body"
- Join in PE with Joe Wicks and Hey Duggee ([The Workout Badges with Hey Duggee & Joe Wicks | YouTube Kids | Official Trailer - YouTube](#))
- Play our favourite games
- Role Play doctors and nurses to learn about different body parts and how we can look after ourselves
