

1

Level 1

For sensory and experience-led learners

### Outdoor scavenger hunt

Go to the park and find some animals.

? Can you find some ducks?

? Can you find some dogs?

? Can you find some insects?

How many?

### Start here

Story read through- <https://www.youtube.com/watch?v=XJCV49gfg10>  
 Animals moving in a park- <https://www.youtube.com/watch?v=63QyMIUzMA0>  
 Seeing a mouse up close- <https://www.youtube.com/watch?v=l70UhhNalqA>  
 Pause the videos and count- how many now? Count out loud together and use fingers

### Snake puppets

Make a snake from an sock placing it over your hand.

Go and pick up mice (stones) from the garden. How many are there?

### Playdough Mice

Make some mice out of playdough.

Have some different size jars.

How many can fit in each jar?

### Jar exploration

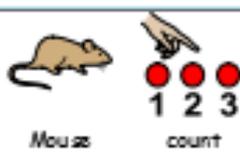

Collect some different size jars and tins.

What household things can you find that make a big noise when it hits the bottom of the jar? What objects can you find that make a small noise or no noise?

Welly Walk\*

Go to a welly walk to find some birds.

How many different birds can you see?

Identify features that are the same and features that are different between the different birds

you find.

Make your own maths story

Create your own counting to 20 story by drawing pictures to represent the numbers.

123

Make a teen number maths spinner

Show a number in lots of different ways- how many different ways can you find to show the same number?

123

 **3**  
Level 3

For learners working at National Curriculum level

**Start**  
 Story read-through- <https://www.mathsthroughstories.org/100-days-of-cool.html>  
 Count to 100- <https://www.youtube.com/watch?v=1dkPouLWCyc>  
 Counting in 2's, 5's, 10's- [https://www.youtube.com/watch?v=q\\_yUC1NCFkE](https://www.youtube.com/watch?v=q_yUC1NCFkE)  
 Number strings- <https://www.youtube.com/watch?v=pkWEL6gd7Fo>

100 square jigsaw (online)  
<https://nrich.maths.org/5572>

Let's talk about numbers!  
 See next page

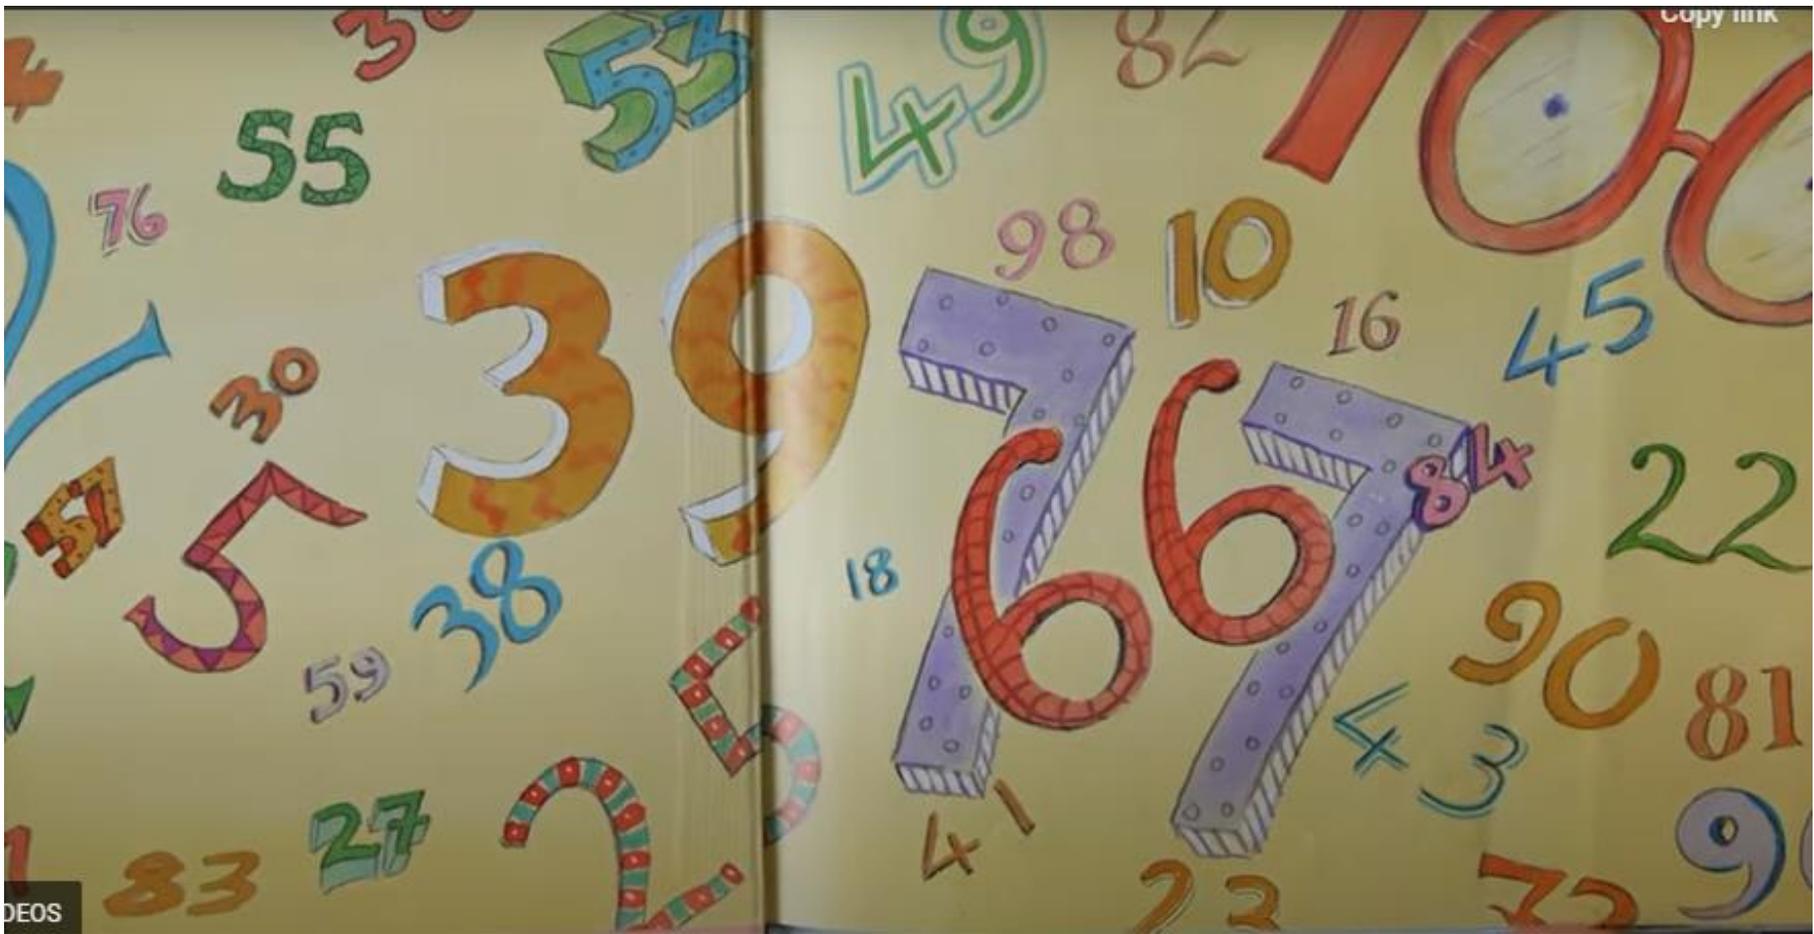

Cheerios numberline  
 Use string and thread cheerios by colour in groups of 10. Use this numberline to represent counting in 1's, 2s, 5's and 10's. Discuss what number comes before and after a given number.  
 Gain familiarity with the place value of numbers using the terms 'tens' and 'ones'. So for example, 45 has 4 lots of tens and 5 lots of one.

Make a numberline  
 Using a long thin piece of paper. Only put in 10, 20, 30 etc onto the numberline. Now use a paper arrow and find out where different numbers would be placed on the numberline. Remember, 41 would be close to 40 but further away from 50!

Explore 100  
 Explore the value of 100 by starting a '100 things' collection. Group them in sets of 10 (or 5!). You can use 1p coins, lego pieces, pasta pieces, straws, anything that you have around the house. Show me all the collections you have found!

Show me  
 Use your '100 things' collections. Choose any number and 'show me' what this looks like. Remember to identify the groups of tens and the groups of ones!

Which numbers can you see?

Some numbers have fallen off the page- which numbers could they be? Which numbers can't they be?

Which is the biggest/ smallest number on this page?

Which numbers are odd/ even?

Can you find the number that is one more than/ one less than \_\_\_\_?

I'm looking at a number. It has \_\_\_\_ tens / \_\_\_\_ ones.  
What number might I be looking at?
