

Firstly, thank you to our parents and carers for their continued support over the Summer holidays to give their children some experiences of the Rio Olympics for our September whole school Olympics celebration.

The schools aim was for each class to learn 'The Frog Olympics' story using 'Talk4writing' and to then create their own version of the story.

Apple Class began the topic with a shock. The frogs had visited their classroom, leaving behind some slime which started a lot of discussions.

Cedar Class became speckled frogs sat on their speckled log.

Oak Class competed in their own frog Olympics - leapfrogging from bank to bank.

Redwood Class used their story maps to create their own individual Olympics story changing the character and setting.

Pine Class use the ICT skill 'drag and drop' to count the frogs on the log.

The whole school had the amazing opportunity to practice one of the schools values by showing respect while holding real frogs and meeting a massive bull frog – he was fascinating!
