6th September 2017

Dear Parents,

I hope you have all had a great summer holiday and you managed to have some enjoyable days getting out and about. I'm really looking forward to the fun and excitement of supporting and teaching your child this year. Our topic this term will be; We've got the Power! It will be science based with focuses on sound, light and electricity. We will continue to work on their individual Maths and English targets in structured sessions. Teaching and learning will be multi-sensory and where possible based around your child's interests. In Fir Class communication and social understanding will also be a major focus to support your child's all round development.

Swimming will be on Wednesday, and PE will be on Tuesday, your child will require named kit on both of these days.

What can you do?

No one knows your child better than you do. I truly believe that the more I know and understand about your child the more effective we can be in supporting your child in school. Over the next week or so, please find the time to write to me and tell us about your child (thank-you to those that have already done this). You may want to include a brief biography, information on their strengths and weakness, their fears and what works well with your child. Please also tell me about the expectation you have for the year; from your child, from myself and the team and from the school. What information would you like to have recorded in your home school book? I will respond to any questions or concerns you may have.

Jenny and the Fir Class Team
